upfront capital cost

3D Printing as a Service - Not Ownership

EduPrint Solutions

WEBSITE SPECIFICATION

Production website — live and serving schools across Greater Manchester. Built, optimised, and maintained by Sitethreesixty.

- LIVE PRODUCTION
- 100/100 LIGHTHOUSE
- MOBILE OPTIMISED
- WCAG AA

At a Glance

- **Business:** 3D printer leasing, training, and support designed for UK schools — starting in Greater Manchester
- **Scale:** Landing page with service overview, pricing, process steps, educational value, and compliance information
- **Deployment:** Cloudflare Pages with global CDN delivery, automatic SSL, and edge-optimised performance
- **Equipment:** Bambu Lab A1 & P1P professional printers with 24–48 hour replacement guarantee
- **Target:** Secondary schools, multi-academy trusts, primary schools introducing STEM, FE colleges
- **Performance:** 100/100/100/100 Lighthouse scores — zero blocking time, sub-second load on desktop

Page Sections

Hero & Trust Points

Clear value proposition with CTA buttons and trust indicators: 24–48hr replacement, Bambu Lab printers, from £287/month, zero upfront cost.

Services Overview

Three service cards covering printer hardware, guaranteed uptime with replacement stock, and full support & training packages.

How It Works

Four-step process: free consultation, choose package (Bronze/Silver/Gold), installation & training, start printing.

Education & Compliance

Educational value grid (STEM, D&T, problem solving) plus safeguarding section: CE, UKCA, GDPR, DBS-checked technicians.

Live Performance Snapshot

Measured using Google Lighthouse on the live production site at eduprintsolutions.co.uk. These are real-world scores — not simulated or cached results.

Homepage — Clean hero with clear value proposition and trust indicators

Mobile Experience

Fully responsive mobile layout

Mobile-first responsive design. No content is hidden or degraded on smaller screens.

Technical Foundation

Purpose-Built Frontend

Framework-free HTML and CSS with a layered token system. No React, Vue, or Angular — what ships is what was written.

Edge-First Deployment

Cloudflare Pages with global CDN delivery. Static assets served from the nearest data centre to each visitor.

Layered CSS Architecture

5-layer design system: Tokens (colours, typography, spacing, effects), Theme, Layout, Components, Pages.

School-Ready Compliance

CE marked, UKCA compliant, GDPR compliant. DBS-checked technicians. Non-toxic, age-appropriate materials.

Technology Stack

- **Front-End:** HTML5, CSS3 (no JS required)
- **CSS:** Token-based architecture
- **Images:** WebP with PNG fallback
- **Hosting:** Cloudflare Pages (global CDN)
- **SSL:** Auto-renewing certificates
- **Email:** Maileroo transactional
